Homestead Avenue Interceptor Extension Project

Preliminary Work in Progress

The Metropolitan District wants you to know that preliminary work for the *Homestead Avenue Interceptor Extension Project* is starting.

Currently, utilities including AT&T and CL&P are working in coordination with the District to relocate lines as needed in preparation for this Project. Very soon, NorthEast Remsco, the general contractor for the *Homestead Avenue Interceptor Extension Project*, will be digging test pits at various locations along the project route.

We will continue to notify you as this project progresses and we welcome your questions or concerns. *For more information on this and other Clean Water Project activities, please visit our website at www.thecleanwaterproject.com or call Julie McLaughlin at 860.278.7850 Ext. 3309.*

Please note, heavy construction for this project has not begun but is anticipated to begin in June.
